EXPENDITURE EXPLANATION

The proposed legislation will not impact state general fund expenditures. However, to the extent notifications are mailed to day care facilities, preschools, and elementary schools to state that full disclosure of lead hazards, lead abatement services, or any lead testing is required as a result of this legislation, a minimal increase may occur.

The proposed legislation may result in an increase in local fund expenditures as a result of notifying parents or legal guardians of each child at the facility receiving lead hazard reduction services. Notification of parents or legal guardians can be by written means or electronic means such as e-mail or posting on the facility’s website. This cost would only apply to those facilities that are operated by local governing authorities. To the extent written notifications are mailed, there would be additional costs associated with postage.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
